Incoming U of M students can take our **Math Placement Assessment** and work through the Prep & Learning Modules in order to increase the chance of success in their math courses.

**U of M students who are successful in passing their math courses:**

- Save 4+ months of class time and graduate sooner
- Save on books and fees
- Save on tuition – lowering the cost of re-instruction
- Experience a greater range of career options
- Are more likely to enroll in higher-level math courses
Individualized study plan:

- **Using artificial intelligence**, ALEKS provides students with a roadmap to success.

- **6 Months access to Learning Modules**: Based on the students' placement results, ALEKS offers the student 6 months of individualized learning.

- **Cost savings**: Data shows that students who complete the ALEKS Learning Module move up one level in course structure and outperform their peers who were placed into a course through other means.
