

Project 5

Building Up Savings And Debt

What To Hand In

- Hand in answers to all the numbered questions in the “Project Description”. Give complete explanations (ones a colleague who is not in this class could understand) and use complete sentences. Show all the mathematics that you used to get each answer. Include conclusions where appropriate.
- From the article *Have we caught your interest?*, read the Alice and Bob problem under the section “Early investment pays” (on page 8 of the hard copy given in this project packet). Explain Alice’s and Bob’s actions and comment on the implications of the outcomes.
