Quiz #2: February 3

Quiz #3: February 24

Quiz #4: March 10

Quiz #5: March 24

The course outline and other information related to this course are in a separate handout. Just one advice before we start: attend the classes! Mathematics and calculus in particular can often not be properly understood and absorbed at first glance; but that first glance, even when it is superficial, can be of considerable value when reviewing the material on your own.
