

Department of Mathematics, University of Manitoba  
**MATH 2170 Introduction to Number Theory**  
2019 Winter Term

## Academic Integrity Declaration

**This form must be completed and returned to your Instructor before any assignments or quizzes can be marked. It only needs to be submitted once.**

**I, the undersigned**, declare that I have read and understood the statements on Academic Integrity attached, and that I agree to abide by them for all the assignments and classroom quizzes and tests given during the term. I understand that I must talk to my Professor for any clarification required.

**In particular**, in regards to assignments, although it is accepted that learning is often a co-operative effort, and that general discussions about assignment questions amongst students are allowed, I declare that:

- Each solution to an assignment problem that I turn in is wholly the product of my own work;
- I have not copied by any means from work done by others, including students in the course, tutorial services, or material available on-line;
- Any work that I hand in is not the product of several students working as a team;
- I will not provide solutions to other students.

I understand that submitting work which is not wholly my own, or distributing my work to other students for their use is considered an act of Academic Dishonesty and is subject to penalty as described by the University of Manitoba's Student Discipline ByLaw.

**and in particular**, in regards to in-class quizzes and tests, I declare that I understand that looking at another person's work, or allowing another person to see my work, is considered an act of Academic Dishonesty and subject to penalty.

## Statement on Assignments and Academic Integrity

### STATEMENT ON ASSIGNMENTS:

Matters of academic integrity as outlined below are of special concern in a course where evaluation depends heavily on written work. Submitting another person's work as your own is a serious offense. In particular, this applies to submitting solutions that may be found through on-line resources. If your work is based in part on resources other than the course material, it must be properly documented: full citation in appropriate form of books, papers, or web sites. You are encouraged to discuss your work together and to talk with each other about your assignments: learning can and should be a co-operative effort. This does not mean that copying in any form will be tolerated. Any work submitted for credit must be your own. Please talk to me if you need any clarification of these matters.

### FACULTY OF SCIENCE STATEMENT ON INTEGRITY:

The Faculty of Science and The University of Manitoba regard acts of academic dishonesty in quizzes, tests, examinations, laboratory reports, or assignments as serious offences and may assess a variety of penalties depending on the nature of the offence. Acts of academic dishonesty include, but are not limited to bringing unauthorized materials into a test or exam, copying from another individual, using answers provided by tutors, plagiarism, and examination personation. Note that cell phones, pagers, PDAs, MP3 units or electronic translators are explicitly listed as unauthorized materials (\*), and must not be present during tests or examinations. Penalties that may apply, as provided for under the University of Manitoba's Student Discipline By-Law, range from a grade of zero for the assignment or examination, failure in the course, to expulsion from the University. The Student Discipline By-Law may be accessed at:

[http://umanitoba.ca/admin/governance/governing\\_documents/students/student\\_discipline.html](http://umanitoba.ca/admin/governance/governing_documents/students/student_discipline.html)

Information from the Faculty of Science regarding Cheating and Plagiarism can be found at:

<http://umanitoba.ca/faculties/science/undergrad/resources/webdisciplinedocuments.html>

All Faculty members (and their teaching assistants) have been instructed to be vigilant and report all incidents of academic dishonesty to the Head of the Department.

<https://www.math.umanitoba.ca/resources/academic-dishonesty/>

In addition, all students are referred to the Department of Mathematics Statement on Academic Dishonesty at:

<https://www.math.umanitoba.ca/resources/academic-dishonesty/>

(\*) Note that for this course, simple, non-programmable, (not wifi or cell enabled) calculators are **permitted** and sometimes **necessary** at tests and exams.
